

West Publisher Version 5.0

THE NEXT GENERATION FROM THE REALLEGAL PRODUCT SUITE

IMPROVED POWER, SIMPLICITY, AND VERSATILITY MAKE IT EASIER THAN EVER TO ADD VALUE TO TRANSCRIPTS

PUT ALL THE KEY EVIDENCE CONTAINED IN TRANSCRIPTS, EXHIBITS AND VIDEO RIGHT AT YOUR CLIENTS' FINGERTIPS

West Publisher 5.0 combines the strengths of RealLegal® Publisher 4.0, the clarity of LiveNote™ LEFMaker™, and the power of West LiveNote software into one elegant product for court reporting agencies.

- **Streamlined interface and functionality.** Publisher 5.0 is sleek, simplified, and very similar in appearance to the new West LiveNote and West Case Notebook™ software used by attorneys. Entering bundle properties, metadata, and cover-page specifications are now optional.
- **One simple viewer for everything.** All transcripts, exhibits and video files now display in a single viewing window for ease of use.
- **Greater flexibility for Optical Character Recognition (OCR).** Publisher 5.0 automatically includes the OCR Engine with every licensed installation. This makes it more convenient to convert imaged exhibit documents into fully searchable content while also having the flexibility to select which exhibits to OCR.
- **Improved flexibility in import formats.** Publisher 5.0 imports ASCII transcripts as well as your final, formatted and electronically-signed transcripts from E-Transcript Manager™. Publisher 5.0 makes it more intuitive to select multiple exhibit documents for import, and you can define whether the multiple document files represent a single, multiple-page exhibit or multiple, single-page exhibits. The MediaSync application includes the same flexibility in video formats as in earlier Publisher versions.
- **Automatic hyperlinks to exhibit names and references.** Publisher 5.0 can automatically create hyperlinks between every exhibit mention in the transcript and the actual exhibit document you select. Wildcard search technology makes it easier to create hyperlinks from additional terms in the transcript. Manual link and unlink functionality is available.
- **Access legacy files from Publisher or LEFMaker.** Publisher 5.0 makes it easier than ever to update bundles with new files or for compatibility with your clients' investments in the new West LiveNote or West Case

Notebook software. Publisher 5.0 opens any LEF file and is reverse compatible with Publisher 2.x, 3.x and 4.x.

A BUNDLE FROM PUBLISHER 5.0 WORKS FOR EVERY LAW FIRM

Since 83 percent of top U.S. law firms use West LiveNote software* to manage transcripts, Publisher 5.0 ensures you are compatible not only with those firms, but with every client, regardless of the software they own.

Publisher 5.0 enables you to save the bundle in several formats, including:

1. **A .PTZ file.** This imports directly into your clients' West LiveNote or West Case Notebook software. When your clients double-click a PTZ file, West LiveNote or West Case Notebook opens automatically and prompts the user to import the PTZ into a specific case. Once imported, all the files in the PTZ (transcripts, documents, links, and video synchronization data) are available in the software.
2. **Various legacy formats.** Some of your clients may request the bundle in the format that works with other proprietary products. You may save as a Publisher 4.x bundle, a LiveNote 10 LEF file, a Summation SBF, a Sanction MDB, or a Sanction Case MDB.
3. **An E-Transcript Bundle Disk.** Like a classic Publisher Bundle, this option includes the free E-Transcript Bundle Viewer with the bundle. When your clients insert the disc into their computer, the bundle opens automatically in the free viewing software. Your clients can then view everything in the bundle and save the files out to other convenient formats as needed.

WEST®

SEE HOW EASY IT IS TO USE WEST PUBLISHER 5.0

OPTICAL CHARACTER RECOGNITION (OCR)

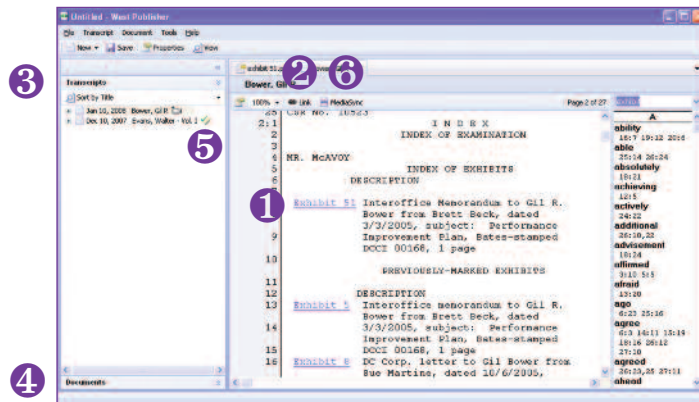

The embedded OCR Engine makes it more convenient to convert imaged exhibit documents into fully searchable content while having the flexibility to select which exhibits to OCR.

1. Use the drop-down menu to select OCR Status
2. Select the exhibits you want to OCR
3. Publisher creates a hyperlinked word index of every term in the exhibit

A COMPREHENSIVE BUNDLE

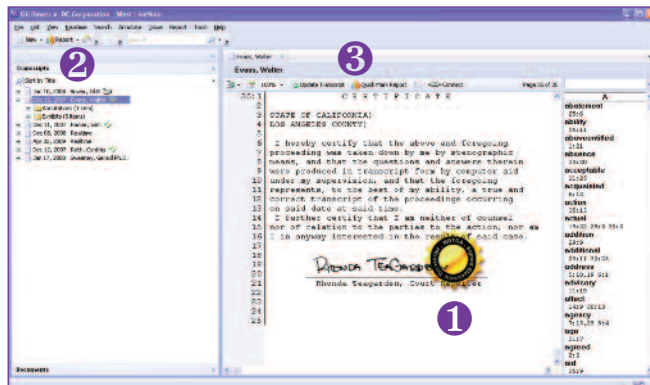

1. Publisher automatically creates hyperlinks between every exhibit reference in the transcript and the actual exhibit documents
2. Link button provides manual link options
3. Transcript tab lists all the transcripts you imported
4. Document tab lists all the exhibits you imported
5. Transcripts with an E-Transcript Signature display with a green checkmark
6. MediaSync button synchronizes testimony from the transcript with the corresponding audio from the video file

VIEWING A PTZ IN WEST LIVENOTE SOFTWARE

PTZ bundles may be viewed with the free viewer or imported into either West LiveNote or West Case Notebook.

1. E-Transcript Signature seal confirms the validity of the transcript
2. Icons indicate additional information within the transcript (i.e. green flag for signature, camera for synched video)
3. Attorneys have multiple tools for marking up and summarizing key testimony
